

Good [LYRICS]

VICTORY HOUSE WORSHIP

Music and lyrics by Korey Bowie, Danielle Cruz, Jamal McGhee

Chorus 1

I don't know what You're doing
But it's gonna be good
I don't know what You're doing
But it's gonna be good
All I know is everything's
Working out for the good
Of those who love you God
I don't know what you're doing
But it's gonna be good

Verse 1

You called me on the water
You called me through the fire
You called me to the dry bones
and told them to live
I may not understand
Every part of your plan
But I will take your hand
And trust you still
I will take your hand
And trust you still

Chorus 2

I believe what You're doing
Is gonna to be good
I believe what You're doing
Is gonna to be good
I believe everything's
Working out for the good
Of those who love You, God
I believe what You're doing
Is going to be good

Verse 2

I walked on the water
I made it through the fire
I spoke to the dry bones
And saw them live
When I don't understand
Every part of Your plan
I will take Your hand
And trust You still
I will take Your hand
And trust You still

Chorus 3

Lord I know what You're doing
Is gonna be good
Lord I know what You're doing
Is gonna be good
Cause I know everything's
Working out for the good
Of those who love You, God
Lord I know what You're doing
Is gonna be good

It's gonna be good
It's gonna be real real good

Bridge

'Cause You are good
Everything you do is good
Every work of your hand
It is good
Lord your word declares that

Lord I know what You're doing

Is gonna be good

Lord I know what You're doing

Is gonna be good

Cause I know everything's working out
for the good

I know everything's working out for the
good

I can see everything's working out for
the good

I can see everything's working out for
the good

I can feel everything's working out for
the good of those who love you God

I can feel everything's working out for
the good of those who love you God

Cause I know everything's working out
for the good of those who love you God

Lord I know what You're doing

Is gonna be good

It's gonna be good

It's gonna be good
